

ClearExport Docs

Work Smarter Not Harder.

Clear Objective has a range of Extension Products that address specific business process requirements.

ClearExport Docs is an Australian Department of Agriculture and Water Resources accredited Clear Enterprise utility app that provides automatic electronic integration of export documentation. It provides rapid and efficient exchange of your export documentation and complies with all the needs of EXDOC and Australian customs.

Easily Configurable

Easily configurable, ClearExport Docs will greatly reduce the load on your back office staff. The functionality is fully integrated with Clear Enterprise – from shipping through to the financials system.

Total Export Document Control

Management can now have the confidence in their export documentation, have visibility of the process through the reporting capability, and most importantly know that the staff are able to work productively.
